AUS Consultants Extends International Valuation Practice

Milwaukee, WI – May 7, 2008 – AUS Consultants continues to expand its international presence. Michael J. Diedrich, a Principal at AUS Consultants, made a presentation to a group of appraisers from Russia on the valuation of electric generation plants on May 7, 2008. These appraisers belonged to a Russian appraisal society known as “Self Regulated Inter-Regional Association of the Appraisers”. About 30 appraisers, representing a wide variety of appraisal disciplines and a diverse range of companies including Colliers International, Interregional Valuers Association, Lukoil Oil Company, and PGP International attended this premier, four-day training conference, held near Miami. Valuation experts presented case studies in appraisals of different assets. Mr. Diedrich delivered the capstone case study on the appraisal of electric generation plants. “We wanted to wrap up this conference with a unique presentation that would expand their knowledge of appraisal methodology”, said Mr. Diedrich.

AUS Consultants is a subsidiary of AUS, Inc., a Mount Laurel, New Jersey-based global market research and consulting firm. Founded in 1967, AUS provides its clients with a wide range of sophisticated market research, systems, and consulting services. AUS Consultants includes experienced teams of economists, engineers, public utility rate specialists and valuation professionals.
