[Gordon V. Smith](#), Franklin Pierce Law Center's new Distinguished Professor of Intellectual Property Management, was in Singapore July 30 and 31 to present and moderate a panel on the monetization of IP. Invited by the Intellectual Property Office of Singapore, Professor Smith joins presenters from around the world at the APEC "[Trading Ideas](#)" symposium. Although Smith is the newest faculty member to take Pierce Law knowledge to the far corners of the earth, he is just one of many ambassadors who have taken advantage of the summer break to collaborate, teach and share ideas with colleagues around the world.
